To: Robert Woodard  
From: Greg Lippert  
Subject: 2011 Spring Chinook Escapement Data

Attached is an excel spreadsheet detailing 2011 spring Chinook and coho redd counts, live/dead counts, and total escapement estimates data for the Asotin River. Data was received from WDFW Fisheries biologist Michael Gallinat. These data are an update to data previously submitted to StreamNet in 2010. These data are not published in an annual report but the table is updated annually and is available upon request from the biologist. Data was received in a personal communication. It will be incorporated into StreamNet to provide information on fisheries in a timely manner.

Attach: Table
