Executive Summary (file size: 27 mb pdf)

1 Introduction and Purpose (file size: 45 kb pdf)

1.1	Overview of Watershed Planning Process in the Yakima Basin.....	1-1
1.1.1	Background.....	1-1
1.1.2	Legal Basis for Planning.....	1-2
1.1.3	Application of Watershed Planning in the Yakima Basin.....	1-4
1.1.4	Planning Unit Goals and Objectives.....	1-5
1.2	Statement of Purpose for Assessment Document.....	1-5
1.2.1	Context and Purpose of Assessment Phase.....	1-5
1.2.2	Objectives of this Assessment Document.....	1-6
1.2.3	Plan Limitations.....	1-7
1.2.4	Water Right Assessments.....	1-7
1.2.5	Planning Area.....	1-8
1.3	Process for Conducting Assessment Phase.....	1-8

2 Setting (file size: 53.6 mb pdf)

2.1	Regional Setting.....	2-1
2.2	Topography and Drainage.....	2-1
2.3	Geographic Breakdown for Purposes of Watershed Assessment.....	2-2
2.4	Geology and Hydrogeology.....	2-7
2.4.1	Geologic Units of the Columbia Basin.....	2-7
2.4.2	Geologic Units of the Cascade Province.....	2-10
2.4.3	Structural Controls on Ground Water Occurrence and Movement.....	2-10
2.5	Climate.....	2-11
2.6	Land Cover, Use, and Ownership.....	2-11
2.7	Political and Jurisdictional.....	2-12
2.8	Population.....	2-15
2.9	Agricultural Activities.....	2-15
2.10	Fish, Wildlife, Aesthetic and Recreational Resources.....	2-22
2.11	Alterations from Pre-development Conditions.....	2-22

3 Surface Water Resources (file size: 40.7 mb pdf)

- 3.1 Surface Water Resources by Subarea..... 3-3
 - 3.1.1 Existing Hydrologic Data 3-3
 - 3.1.2 Yakima Project Operations 3-11
 - 3.1.3 Surface Water Resources in Yakima River Tributaries..... 3-37
- 3.2 Current and Projected Surface Water Uses 3-61 (file size: 69.3 mb pdf)
 - 3.2.1 Agricultural Irrigation Uses 3-61
 - 3.2.2 Municipal and Industrial (M&I) Uses 3-67
 - 3.2.3 Estimate of Diversions for Hydropower 3-69
 - 3.2.4 Estimate of Total Volume of Surface Water Diverted 3-69
 - 3.2.5 Projected Irrigation Needs 3-70
 - 3.2.6 Projected Municipal and Industrial Needs..... 3-71
 - 3.2.7 Projected Surface Water Needs for Hydropower..... 3-71
- 3.3 Surface Water Rights 3-72
 - 3.3.1 Historical Background..... 3-72
 - 3.3.2 General Description of Yakima Basin Adjudication Process.. 3-72
 - 3.3.3 Breakdown of Adjudicated Surface Water Rights..... 3-74
 - 3.3.4 Federal Rights Related to Yakima Project 3-84
 - 3.3.5 Federal Reserved Water Rights 3-99
 - 3.3.6 Potential Illegal Uses of Surface Water..... 3-100
- 3.4 Legal Requirements for Instream Flows..... 3-101
 - 3.4.1 Court-Mandated Flows..... 3-101
 - 3.4.2 Mandated by Federal Legislation 3-103
 - 3.4.3 Reclamation Operational Targets..... 3-104
 - 3.4.4 State Regulations on Instream Flows..... 3-106
- 3.5 Surface Water Available 3-107
 - 3.5.1 Surface Water Present in Context of RCW 90.82 3-107
 - 3.5.2 Surface Water Available in Context of RCW 90.82..... 3-108
 - 3.5.3 Surface Water Available for Further Appropriation in Context of RCW 90.82 3-108
- 3.6 Evaluation of Data Sources Regarding Surface Water Quantity.... 3-110
 - 3.6.1 Use of Surface Water Data in the Planning Phase (Phase III) 3-110
 - 3.6.2 Evaluation of Hydrologic Data..... 3-110
 - 3.6.3 Evaluation of Surface Water Use Data 3-113
 - 3.6.4 Evaluation of Surface Water Rights Data..... 3-114
 - 3.6.5 Recommended Surface Water Data Acquisition 3-116

4 Ground Water Resources (file size: 73 mb pdf)

- 4.1 Hydrogeology of the Yakima Basin 4-3
 - 4.1.1 Principles of Ground Water Occurrence and Flow..... 4-3
 - 4.1.2 Hydrostratigraphy of the Yakima Basin 4-17
 - 4.1.3 Hydrogeologic Characteristics by Subarea..... 4-28

- 4.2 Current and Projected Ground Water Uses 4-46
 - 4.2.1 Agricultural Irrigation Use of Ground Water 4-46
 - 4.2.2 Municipal, Industrial, and Domestic Uses 4-50
 - 4.2.3 Other Legal Uses of Ground Water 4-61
 - 4.2.4 Potential Illegal Uses of Ground Water..... 4-61
 - 4.2.5 Summary of Ground Water Uses..... 4-61
- 4.3 Ground Water Rights 4-62
 - 4.3.1 Data Sources and Terminology for Ground Water Rights..... 4-62
 - 4.3.2 Summary of Ground Water Rights Data from WRATS Database 4-64
 - 4.3.3 Exempt Wells..... 4-69
 - 4.3.4 Potential Illegal Uses of Ground Water..... 4-69
- 4.4 Water Available..... 4-71
 - 4.4.1 Water Present in Context of RCW 90.82 4-71
 - 4.4.2 Water Available in Context of RCW 90.82 4-72
 - 4.4.3 Water Available for Further Appropriation in Context of RCW 90.82 4-73
- 4.5 Ground Water/Surface Water Exchange..... 4-77
 - 4.5.1 Groundwater Recharge Related to Water Usage 4-77
 - 4.5.2 Recharge and Discharge Involving Unconfined Aquifers 4-79
 - 4.5.3 Physical Factors Influencing Exchange Between Surface Waters and Basalt Aquifers 4-79
 - 4.5.4 Major Locations of Recharge and Discharge 4-83
 - 4.5.5 Information Needs for Quantification of Recharge and Discharge 4-85
 - 4.5.6 Capture of Surface Water by Wells..... 4-86
- 4.6 Evaluation of Data Sources Regarding Ground Water Resources 4-89
 - 4.6.1 Evaluation of Geologic and Hydrogeologic Data 4-89
 - 4.6.2 Evaluation of Ground Water Rights Data..... 4-93
 - 4.6.3 Evaluation of Ground Water Use Data 4-94
 - 4.6.4 Recommended Ground Water Data Acquisition 4-96

5 Water Quality

- 5.1 Introduction to the Water Quality Section..... 5-1 (file size: 16.4 mb pdf)
 - 5.1.1 Assumptions..... 5-1
 - 5.1.2 Organization of this Section..... 5-3
- 5.2 Surface Water Quality 5-4
 - 5.2.1 State-designated Characteristic Uses and Water Quality Standards 5-4
 - 5.2.2 Water Quality Parameters 5-24 (file size: 8.8 mb pdf)
 - 5.2.3 Surface Water Quality Conditions..... 5-29
 - 5.2.4 Natural and Man-Made Causes of Surface Water Quality Degradation..... 5-80 (file size: 180 kb pdf)

5.2.5	Evaluation of Data Sources Addressing Surface Water Quality	5-94	(file size: 180 kb pdf)
5.3	Ground Water Quality	5-102	
5.3.1	State and Federal Standards	5-103	
5.3.2	Water Quality Parameters	5-104	
5.3.3	Ground Water Quality Monitoring	5-109	
5.3.4	Ground Water Quality Conditions.....	5-111	
5.3.5	Natural and Man-made Causes of Ground Water Quality Degradation	5-112	
5.3.6	Evaluation of Data Sources Addressing Ground Water Quality	5-113	
5.4	Regulatory and Non-Regulatory Programs Addressing Water Quality	5-115	
5.4.1	Existing Laws, Regulations, and Permits Related to Water Quality	5-115	
5.4.2	Non-regulatory Programs.....	5-118	
5.5	Water Quality Monitoring and Management Framework	5-120	
5.5.1	Comprehensive Monitoring and Management Study	5-120	
5.5.2	Standard Protocol	5-121	
5.5.3	Operational, Regulatory, and Resource Monitoring and Management Objectives	5-121	
5.5.4	Integration of Other Monitoring and Management Strategies	5-122	
5.5.5	Phased Development of Monitoring Program	5-123	

6 Habitat Assessment

6.1	Introduction to Habitat Assessment	6-1	(file size: 246 kb pdf)
6.1.1	Assumptions.....	6-1	
6.1.2	Organization of this Section.....	6-3	
6.1.3	Use of this Document	6-3	
6.2	Historical Perspective	6-4	
6.2.1	Historical Development.....	6-4	
6.2.2	Local History.....	6-5	
6.2.3	Recent Changes Affecting Habitats.....	6-9	
6.2.4	Historical Perspective for Future Habitat Restoration	6-12	
6.2.5	Previous Habitat Problem Overviews.....	6-12	
6.3	Aquatic Life and Habitat Factors	6-19	
6.3.1	Yakima River Aquatic Life.....	6-19	
6.3.2	Fish Distribution Sources	6-26	
6.3.3	Fish Habitat Needs.....	6-27	
6.3.4	Habitat Factors.....	6-28	
6.3.5	Selected Habitat Factors for Assessment	6-31	
6.3.6	Description of Individual Habitat Factors.....	6-34	
6.3.7	Target Flows	6-43	

6.3.8	Flood Plain Function	6-44	
6.4	River Reaches	6-46	(file size: 69.6 mb pdf)
6.4.1	Selection of River Reaches	6-46	
6.4.2	Keechelus Dam to Cle Elum River	6-48	
6.4.3	Cle Elum River to Wilson Creek	6-61	
6.4.4	Yakima River Mainstem Mouth of Wilson Creek to Parker Dam	6-73	
6.4.5	Naches River Mainstem Little Naches River to Naches River Mouth.....	6-84	
6.4.6	Yakima River Mainstem Parker Dam to Toppenish Creek....	6-94	
6.4.7	Yakima River Mainstem Toppenish Creek to Columbia River	6-108	
6.5	Subbasin Assessments	6-118	(file size: 138.9 mb pdf)
6.5.1	Selection of Subbasins	6-118	
6.5.2	Keechelus – Kachess	6-120	
6.5.3	Cle Elum River Subbasin	6-134	
6.5.4	Teaway Subbasin.....	6-145	
6.5.5	Swauk-Reecer Subbasin.....	6-163	
6.5.6	Taneum/Manastash Subbasin.....	6-176	
6.5.7	Wilson/Cherry Subbasin.....	6-190	
6.5.8	Wenas – Umtanum Subbasin.....	6-205	
6.5.9	Lmuma – Burbank Subbasin	6-215	
6.5.10	Bumping-Little Naches Subbasin.....	6-220	
6.5.11	Rattlesnake Creek Subbasin.....	6-232	
6.5.12	Tieton-Cowiche Subbasin	6-243	
6.5.13	Ahtanum-Wide Hollow Subbasin.....	6-256	
6.5.14	Lower Yakima Tributaries	6-269	
6.6	Habitat Conditions, Priorities, and Information Needs	6-283	(file size: 220 kb pdf)
6.6.1	Habitat Conditions Summaries	6-283	
6.7	Habitat Regulatory Programs.....	6-306	
6.7.1	Local Regulatory Programs.....	6-311	
6.7.2	State Regulatory Programs.....	6-312	
6.7.3	Federal Regulatory Programs.....	6-313	
6.8	Habitat Non-Regulatory Programs	6-315	
6.8.1	Local Non-Regulatory Programs.....	6-320	
6.8.2	State Non-Regulatory Programs.....	6-321	
6.8.3	Federal Non-Regulatory Programs.....	6-322

Tables

1-1	Technical Assessment Requirements of the Watershed Management Act for Elements Selected in the Yakima River Basin	1-3
2-1	Yakima River Basin Subareas for Watershed Assessment	2-5
2-2	Historic and Projected Population – Yakima River Basin	2-16
2-3a	Crop Acreages Benton County	2-17
2-3b	Crop Acreages Kittitas County	2-18
2-3c	Crop Acreages Yakima County	2-19
2-3d	Crop Acreages Three-County Sum	2-20
2-4	Livestock Inventory Benton, Kittitas, and Yakima Counties	2-21
3-1	Available Stream Gage Records – Daily Flow Record	3-5
3-2	Available Climate Records	3-10
3-3	Entitlement Summary April – October	3-15
3-4	Yakima Project Irrigation Divisions	3-17
3-5	Yakima Project Storage Division	3-18
3-6	Forecasted April – September Yakima Basin TWSA (April 1 Forecast) Period of Record 1940-1999	3-27
3-7	Measured Diversions, Storage, and Reservoir Releases	3-28
3-8	Drainage Area and Runoff Characteristics Upper Yakima Subarea Tributaries	3-38
3-9	Drainage Area and Runoff Characteristics Middle Yakima Subarea Tributaries	3-48
3-10	Drainage Area and Runoff Characteristics Naches Subarea Tributaries	3-53
3-11	Drainage Area and Runoff Characteristics Lower Yakima Subarea	3-56
3-12	Estimated Surface Water Diversions for Irrigation Use for Major Claimants Without CFOs	3-62
3-13	Estimated Surface Water Diversions for Irrigation Use	3-62
3-14	Estimated Acreage Irrigated with Surface Water	3-63
3-15	Available Seepage and Loss Data for Irrigation Entities	3-64
3-16	Estimated Volume of Surface Water Delivered for Irrigation	3-65
3-17	Average Crop Irrigation Requirements	3-66
3-18	Expected Field Application Efficiencies in Washington	3-67
3-19	Estimated Surface Water Diversions for Municipal and Industrial Use	3-68
3-20	Total Estimated Surface Water Diversions	3-70
3-21	Yakima River Basin Surface Water Adjudication Major Claimant Pathway Summary Sheet	3-76
3-22	Major Claimant Pathway Confirmed Surface Water Rights Yakima River Basin Adjudication	3-77

3-23	Yakima River Basin Surface Water Adjudication Subbasin Pathway Summary Sheet	3-85
3-24	Subbasin Pathway – Confirmed Surface Water Rights Yakima River Basin Adjudication	3-86
3-25	Target Instream Flows at Sunnyside and Prosser Diversion Dams	3-104
3-26	Historical Reclamation Fish-Related Operational Streamflow Targets, Water Year	3-105
4-1	Ground Water Rights Analysis on Primary vs. Supplemental	4-48
4-2	Estimate of Total Ground Water Uses in Year 2000 Yakima River Basin (Acre-feet per year)	4-49
4-3	Current and Projected Demands Public Water Systems and Domestic Uses (Systems Serving 1,000 Connections or More Listed Individually)	4-55
4-4a	Ground Water Certificates by Subarea and Purpose of Use	4-59
4-4b	Ground Water Permits by Subarea and Purpose of Use	4-60
4-5	Summary of Available Information on Ground Water Rights	4-66
4-6	Factors Affecting Surface Water/Ground Water Exchange.....	4-82
5-1	General Characteristic Uses and Water Quality Criteria for Surface Waters of the State of Washington	5-8
5-2	State of Washington Surface Water Standards for Toxic Materials (WAC 173-201A-040).....	5-14
5-3	National Primary Drinking Water Regulations (USEPA Safe Drinking Water Act).....	5-17
5-4	Criteria and Guidelines for Pesticides Established or Recommended by Washington State, USEPA, and National Academy of Science (NAS)	5-21
5-5	Water Quality Monitoring Stations, Yakima River Basin	5-32
5-6	Comparison of Dissolved Oxygen, Water Temperature, and pH Values to Washington State Standards, Yakima River Basin, 1986-91 Water Years.....	5-39
5-7	Fecal Coliform and Escherichia Coli Concentrations per Land Use Category.....	5-55
5-8	Comparison of USGS and Ecology Data, Fecal Coliform	5-56
5-9	Number of Sites and Samples with Organic Compound Concentrations that Equaled or Exceeded Chronic Toxicity Water Quality Criteria for the Protection of Freshwater Aquatic Life in the Yakima River Basin, 1988-91 Water Years	5-71
5-10	Current Water Quality Monitoring Activities in the Yakima River Basin	5-74
5-11	Potential Causes of Surface Water Quality Degradation (Adapted from Yakima Valley Conference of Governments, 1995, v. II, Table II-1)	5-81

5-12	State Permit Summary of National Pollutant Discharge Elimination System (NPDES) Permits Yakima River Basin.....	5-86
5-13	Ground Water Quality Criteria	5-105
6-1	Summary of Aquatic Habitat Major Yakima and Naches Rivers and Selected Tributaries.....	6-14
6-2	Relative Ranking of Yakima River System Waterways per USGS Evaluation.....	6-17
6-3	Fish Species Found in Yakima River System	6-19
6-4	Some Habitat Preferences for Targeted Salmonid Species	6-28
6-5	Freshwater Habitat Factors	6-31
6-6	Examples of Stream Complexity vs. Stream Function.....	6-32
6-7	Spring Chinook Redds in the Upper Yakima River and Basin-wide.....	6-51
6-8	Gaged Flows at Yakima River Below Keechelus Dam	6-53
6-9	Gaged Flows at Yakima River below Easton Dam	6-54
6-10	Gaged Flows for Yakima River at Cle Elum	6-65
6-11	Gaged Flows for Yakima River near Horlick	6-66
6-12	Gaged Flows in Yakima River Below Roza Dam	6-77
6-13	Gaged Flows – Naches River at Naches.....	6-87
6-14	Gaged Flows in Yakima River Near Parker.....	6-97
6-15	Unregulated Flow Near Parker	6-98
6-16	Gaged Flows in Yakima River at Prosser	6-111
6-17	Gaged Flows in Yakima River at Kiona	6-111
6-18	Keechelus-Kachess Subbasin – Anadromous Fish Distribution Summary.....	6-125
6-19	Gaged Flows in Kachess River below Kachess Dam	6-126
6-20	Estimated Inflows to Kachess Reservoir.....	6-126
6-21	Gaged Flows in Cle Elum River below Cle Elum Dam.....	6-138
6-22	Estimated Inflows to Lake Cle Elum	6-138
6-23	Teaway River Anadromous Fish Distribution Information Summary	6-151
6-24	Gaged Flows for Teaway River at Forks	6-152
6-25	Swauk-Reecer Subbasin – Anadromous Fish Distribution	6-168
6-26	Taneum-Manatash Creek Anadromous Fish Distribution.....	6-180
6-27	Median Flows in Manastash Creek.....	6-182
6-28	Estimated Median Flows in Taneum Creek	6-182
6-29	Wilson/Cherry Subbasin – Anadromous Fish Distribution Summary.....	6-195
6-30	Gaged Flows for Wilson Creek Upstream of Cherry Creek Confluence	6-196
6-31	Gaged Flows for Cherry Creek Upstream of Wilson Creek Confluence.....	6-197
6-32	American – Little Naches – Anadromous Fish Distribution Summary.....	6-224

6-33	Gaged Flows for Naches River at Cliffdell	6-225
6-34	Rattlesnake Creek - Anadromous Fish Distribution Summary	6-236
6-35	Gaged Flows in Tieton River Near Tieton Canal Headworks	6-248
6-36	Average Monthly Flows in Ahtanum Creek at Union Gap	6-261
6-37	Lower Yakima River Tributaries Anadromous Fish Distribution Summary	6-273
6-38	Habitat Conditions and Problems Matrix Mainstem River Reaches	6-294
6-39	Habitat Conditions and Problems – Tributary Water Bodies	6-295
6-40	Example Comparisons of Habitat Rankings	6-298
6-41	Ranking of Restoration Priorities of Yakima River Waterbodies ...	6-300

3-9	Flow Exceedance Wilson Creek at Thrall Road – Upper Yakima Subarea.....	3-43
3-10	Historical Average Annual Flow and 7-Day Low Flows – Teanaway River at Forks near Cle Elum – Upper Yakima Subarea.....	3-44
3-11	Historical Average Annual Flow and 7-Day Low Flows – Cherry Creek at Thrall Road – Upper Yakima Subarea.....	3-45
3-12	Historical Average Annual Flow and 7-Day Low Flows – Naneum Creek near Ellensburg – Upper Yakima Subarea.....	3-46
3-13	Historical Average Annual Flow and 7-Day Low Flows – Wilson Creek at Thrall Road – Upper Yakima Subarea	3-47
3-14	Flow Exceedance – Ahtanum Creek at Union Road – Middle Yakima Subarea	3-49
3-15	Flow Exceedance – South Fork Ahtanum Creek at Conrad Rance near Tampico – Middle Yakima Subarea.....	3-50
3-16	Historical Average Annual Flow and 7-Day Low Flows – Ahtanum Creek at Union Road – Middle Yakima Subarea	3-51
3-17	Historical Average Annual Flow and 7-Day Low Flows – South Fork Ahtanum Creek at Conrad Ranch neared Tampico – Middle Yakima Subarea	3-52
3-18	Flow Exceedance – American River near Nile – Naches Subarea	3-54

3-19 Historical Average Annual Flow and 7-Day Low Flows –
American River near Nile – Naches Subarea 3-55

3-20 Flow Exceedance – Sulphur Creek at Holiday Road near
Sunnyside – Lower Yakima Subarea 3-57

3-21 Flow Exceedance – Toppenish Creek near Alfalfa –
Lower Yakima Subarea..... 3-58

3-22 Flow Exceedance – Toppenish Creek near Fort Simcoe –
Lower Yakima Subarea..... 3-59

3-23 Historical Average Annual Flow and 7-Day Low Flows –
Sulphur Creek at Holiday Road near Sunnyside –
Lower Yakima Subarea..... 3-60

3-24 Adjudication Subbasins Yakima River Basin 3-75

4-1 A Simple Groundwater Model can be Created Using a Pail,
Dry Sand, and Water 4-4

4-2 Examples of Porosity and Permeability 4-5

4-3 An Idealized Example of an Unconfined Aquifer..... 4-7

4-4 Illustrations of Sloping Water Table 4-8

4-5 Well Interference and Effects on Surface Water 4-10

4-6 Example of Unconfined Aquifers in the Yakima River Basin..... 4-11

4-7 Multiple Aquifers in a Vertical Sequence 4-13

4-8 Tilted Confined Aquifers and Artesian Conditions 4-14

4-9 Tilted Basalt Flows Associated with Folding..... 4-15

4-10 Generalized Stratigraphic Column for the Five Principal
Aquifers of the Yakima River Basin..... 4-18

4-11 Conceptual Cross-section of the Yakima Basin Showing
Generalized Structural Features..... 4-20

4-12 Generalized Features of Basalt Flows in Columbia River
Basalt Group..... 4-21

4-13 Conceptual Connection of the Ellensburg Formation Yakima
River Basin 4-24

4-14 Locations of Geologic Cross Sections Yakima River Basin..... 4-30

4-15a Geologic Profile Upper Yakima River Basin Yakima River Basin
Watershed Assessment 4-31

4-15b Geologic Profile Middle Yakima River Basin Yakima River Basin
Watershed Assessment 4-32

4-15c Geologic Profile Lower Yakima River Basin Yakima River Basin
Watershed Assessment 4-33

4-16 Naches and Upper Yakima Subarea Cross Section A-A –
Yakima River Basin Watershed Assessment..... 4-34

4-17 Middle Yakima Subarea Cross Section B-B – Yakima River Basin
Watershed Assessment 4-37

4-18 Naches Subarea Cross Section C-C – Yakima River Basin
Watershed Assessment 4-41

4-19	Lower Yakima Subarea Cross Section D-D – Yakima River Basin Watershed Assessment	4-43
4-20	Ground Water Rights – Primary Yakima River Basin.....	4-51
4-21	Ground Water Rights – Supplemental Yakima River Basin.....	4-52
4-22	Annual Quantities of Ground Water Rights by Purpose of Use – Yakima River Basin	4-67
4-23	Methodology for Producing Separate Estimates of Supplemental and Primary Water Rights (Ground Water Rights Only).....	4-65
5-1	Water Quality Monitoring Network Yakima River Basin.....	5-5
5-2	303(d) Impaired or Threatened Waters (1998) Yakima River Basin	5-23
5-3	Statistical Distribution of Water Temperature Measurements in the Yakima River Basin, 1986-91 Water Years	5-40
5-4	Temperature, 1992 Water Year Upper Yakima Basin – Ecology Monitoring sites.....	5-41
5-5	Temperature, 1992 Water Year Naches Basin – Ecology Monitoring Sites	5-42
5-6	Temperature, 1992 Water Year Middle & Lower Yakima Basins – Ecology Monitoring sites.....	5-43
5-7	Temperature Variation, 1990-99 Yakima River at Kiona – Ecology Monitoring Site #37A090	5-44
5-8	Temperature Variation, 1990-99 Yakima River near Cle Elum – Ecology Monitoring site #39A090	5-45
5-9	Dissolved Oxygen Concentrations 1990-99 – Yakima River at Kiona – Ecology Monitoring site #37A090	5-47
5-10	Statistical Distributions of Nutrient Concentrations at Fixed Sites – Yakima River Basin, 1987-91 Water Years	5-50
5-11	Nitrate + Nitrite, 1990-99 – Yakima River at Kiona – Ecology Monitoring Site #37A090	5-52
5-12	Phosphorus Compounds, 1996-99 – Yakima River at Kiona – Ecology Monitoring Site #37A090	5-53
5-13	Comparison of Historical Summertime Fecal Coliform Concentrations (1972-85) with Fecal Coliform and Escherichia Coli Bacterial Concentrations (July 1988) in the Yakima River Basin....	5-57
5-14	Fecal Coliform, 1990-99 – Yakima River at Kiona – Ecology Monitoring Site #37A090	5-58
5-15	Fecal Coliform, 1990-99 – Yakima River near Cle Elum – Ecology Monitoring Site #37A090	5-59
5-16	Fecal Coliform, 1992 Water Year – Upper Yakima Basin – Ecology Monitoring Sites	5-60
5-17	Fecal Coliform, 1992 Water Year – Naches Basin – Ecology Monitoring Sites	5-61
5-18	Fecal Coliform, 1992 Water Year - Middle & Lower Yakima Basins – Ecology Monitoring Sites	5-62

5-19	Associated between Suspended Sediment Concentrations and Estimated Sources of Water in the Yakima River, July 1988.....	5-64
5-20	Total Suspended Solids, 1990-99 – Yakima River near Cle Elum – Ecology Monitoring Site #39A090	5-65
5-21	Total Suspended Solids, 1990-99 – Yakima River at Kiona – Ecology Monitoring Site #39A090	5-66
5-22	Total Suspended Solids, 1997-1999 – Sulphur Creek Wasteway at the Main Stem.....	5-67
5-23	Concentrations of DDT, DDD, DDE, and Dieldrin in Unfiltered Water Samples from Yakima River Basin, June 1989	5-70
5-24	Relation of Concentration of Suspended Sediment to Suspended Organic Carbon, DDT+DDD+DDE, and Dieldrin in Unfiltered Water Samples from Yakima River Basin, June 1989	5-73
6-1	Salmonid Life Cycle.....	6-25
6-2	Yakima and Naches River Reaches	6-47
6-3	River Reach #1 Keechelus Dam to Mouth of Cle Elum River	6-49
6-4	River Reach #2 Cle Elum River to Mouth of Wilson Creek.....	6-62
6-5	River Reach #3 Wilson Creek Mouth to Parker	6-74
6-6	River Reach #4 Little Naches River to Yakima River	6-85
6-7	River Reach #5 Parker to Mouth of Toppenish Creek	6-96
6-8	River Reach #6 Toppenish Creek to Columbia River	6-109
6-9	Yakima River Watershed Habitat Assessment Subbasins.....	6-119
6-10	Sub Basin 1: Keechelus-Kachess	6-121
6-11	Sub Basin 2: Cle Elum River	6-135
6-12	Sub Basin 3: Teanaway River.....	6-146
6-13	Sub Basin 4: Swauk-Reecer	6-164
6-14	Sub Basin 5: Taneum-Manastash.....	6-177
6-15	Sub Basin 6: Wilson-Cherry.....	6-191
6-16	Sub Basin 7: Wenas-Umtanum	6-206
6-17	Sub Basin 8: Lmuma-Burbank	6-216
6-18	Sub Basin 9: Bumping-Little Naches	6-221
6-19	Sub Basin 10: Rattlesnake Creek	6-234
6-20	Sub Basin 11: Tieton-Cowiche	6-245
6-21	Sub Basin 12: Ahtanum-Wide Hollow	6-258
6-22	Sub Basin 13: Lower Yakima Tributaries.....	6-270
6-23	Simplified Phase III Habitat Planning Task Diagram.....	6-305
