

INTEGRATED SYSTEM PLAN

JUNE 1, 1991

**INTEGRATED SYSTEM PLAN
FOR SALMON AND STEELHEAD PRODUCTION
IN THE COLUMBIA RIVER BASIN**

June 1, 1991

Prepared by
the Agencies and Indian Tribes of the
Columbia Basin Fish and Wildlife Authority

Columbia Basin System Planning

Funds Provided by
the Northwest Power Planning Council
and the Agencies and Indian Tribes of the
Columbia Basin Fish and Wildlife Authority

Table of Contents

ACKNOWLEDGMENTS	1
INTRODUCTION	3
EXECUTIVE SUMMARY	5
I. SYSTEM GOALS AND POLICIES	11
II. SUMMARY OF SUBBASIN PLANS	15
A. <u>INTRODUCTION</u>	15
SYSTEM ANALYSIS	15
SMART ANALYSIS	19
COST ESTIMATION	27
SYSTEM INTEGRATION UNITS	28
B. <u>UPRIVER SALMON AND STEELHEAD RUNS</u>	31
UPRIVER SPRING CHINOOK	35
Introduction	35
Mid-Columbia Spring Chinook	38
Upper Columbia Spring Chinook	45
Snake River Spring Chinook	51
SUMMER CHINOOK	57
Introduction	57
Upper Columbia Summer Chinook	59
Snake River Summer Chinook	64
UPRIVER FALL CHINOOK	69
Introduction	69
Mid-Columbia Fall Chinook	72
Upper Columbia Bright Fall Chinook	76
Snake River Bright Fall Chinook	79
Bonneville Pool Hatchery Fall Chinook	83

UPRIVER SUMMER STEELHEAD	85
Introduction	85
Mid-Columbia Summer Steelhead	88
Upper Columbia Summer Steelhead	93
Snake River Summer Steelhead, Groups A and B	97
 SOCKEYE SALMON	 105
Introduction	105
Deschutes River Sockeye	107
Yakima River Sockeye	111
Wenatchee River Sockeye	113
Okanogan River Sockeye	116
Grande Ronde Sockeye	119
Salmon River Sockeye	121
 UPRIVER COHO SALMON	 125
 C. <u>LOWER RIVER SALMON AND STEELHEAD RUNS</u>	 131
LOWER RIVER SPRING CHINOOK	133
LOWER RIVER FALL CHINOOK	143
Introduction	143
Lower River Hatchery Fall Chinook	145
Lower River Wild Fall Chinook	151
WINTER STEELHEAD	155
LOWER RIVER SUMMER STEELHEAD	163
LOWER RIVER COHO SALMON	169
Introduction	169
Early-Returning Coho Salmon	171
Late-Returning Coho Salmon	178
CHUM SALMON	185

III. INTEGRATION AND ANALYSIS	191
A. GOAL AND DEFINITION OF INTEGRATION	191
B. STOCK MANAGEMENT CONFLICTS	193
Passage	193
Harvest	194
Production	196
Institutional Considerations	196
C. SUPPLEMENTATION	199
Introduction	199
Definition of Supplementation	202
Uses of Supplementation	202
When to Use Supplementation	204
Approach to a Supplementation Program	206
Supplementation Technology	207
Risk Analysis	212
Research Needs	216
D. ANALYSIS OF PASSAGE ISSUES	223
Introduction	223
System Planning Passage Analysis	223
Mainstem Flow Studies	224
Summary	225
E. ANALYSIS OF HARVEST ISSUES	233
F. SUBBASIN AND SYSTEM PRODUCTION SUMMARY	235
Introduction	235
Contributions from Tributary Subbasins	235
Mainstem Passage and Fish Survival	238
Estimation of Benefits from Flow Enhancement	239
Mainstem Production Increase Options	243
Estimation of Benefits from Mainstem Production Increase Options	246
Combined Estimations of Potential Production Increases	247
G. GENETIC EVALUATION	249
Introduction	249
Preliminary Assessment Procedure	253
Opportunities for Genetic Conservation in the Columbia Basin	255
Prospects for Genetic Conservation	260
Steps Toward Genetic Impact Assessment in System Planning	261
H. CONSISTENCY WITH OTHER PLANS	273
I. UNRESOLVED ISSUES	275

IV. RECOMMENDATIONS	277
A. STOCKS AND AREAS OF EMPHASIS	277
Stocks of Highest Concern	277
Stocks of High Concern	277
Major Production Opportunities	278
Minor Production Opportunities	278
Non-Program Stocks	279
B. RECOMMENDED ACTIVITIES	281
Level 1: Early Implementation Activities	283
Level 2: Near-Term Activities	319
Level 3: Additional Activities	353
C. HATCHERY NEEDS	374
D. SUMMARY OF COSTS	377
E. COMPLIANCE WITH GOAL AND POLICIES	424
F. MONITORING AND EVALUATION NEEDS	426
Critical Uncertainties	426
Policy Questions	427
Monitoring and Evaluation	428
G. FUTURE PLANNING AND IMPLEMENTATION	431
 LITERATURE CITED	 433
 GLOSSARY	 441
 APPENDIX A PUBLIC INVOLVEMENT RECORD	 455
 APPENDIX B GENETIC OPPORTUNITIES KEY	 459
 APPENDIX C RELATIONSHIP TO THE 1987 COLUMBIA RIVER BASIN FISH AND WILDLIFE PROGRAM	 463

ACKNOWLEDGMENTS

Members of the System Planning Group would like to acknowledge the individual subbasin writers, and members of the various public and technical advisory groups who were instrumental in producing the 31 subbasin plans, which formed the basis for this Integrated System Plan. Recognition also goes to the individuals and organizations that participated in the public process and submitted written comments regarding this plan and the subbasin plans.

The System Planning Group would also like to acknowledge the Columbia Basin Fish and Wildlife Authority's Liaison Group, the Northwest Power Planning Council's staff, and the System Planning Oversight Committee for their advisory roles during the organization and development of the System Plan.

Lastly, recognition goes to the members of the Northwest Power Planning Council's Monitoring and Evaluation Group, particularly Duane Anderson, for their assistance and expertise in computer modeling and data base management.

Funds for "system planning" were provided by the region's electrical ratepayers through the Bonneville Power Administration and the Northwest Power Planning Council. The following agencies and Indian tribes received funding via the contracts listed below.

Columbia River Inter-Tribal Fish Commission
Confederated Tribes of the Colville Reservation
Idaho Department of Fish and Game
Oregon Department of Fish and Wildlife
Shoshone-Bannock Indian Tribes
U.S. Fish and Wildlife Service
Washington Department of Fisheries
Washington Department of Wildlife
