The following list is for tributaries flowing into Canada before confluence with Pend Oreille River

Stream No.	Mile Location					Description
	1st Order	2nd Order	3rd Order	4th Order	5th Order	
<p>The tributaries we are concerned with are South Salmo River which flows into Salmo River at Mile 7.4. Salmo River, in turn, has confluence with Pend Oreille at Mile 13.3.</p> <p>Since South Salmo River crosses Washington State at Mile 8.8 (on So. Salmo) and showing on USGS quads Gypsy Peak and Salmo Mountain, it is being assigned a decimal number 0002.01 and all tributaries thereafter that show on our quads are a sequence - <u>upstream</u> of the decimals but without me.</p>
